

Thank you for my scholarship for the clinic.

I had so much fun. I do not really like to show my horse and I get nervous in lessons. Marie made it fun and I really liked the lesson a lot. I learned to use my legs correctly when I canter and to keep my hands down when I canter. I also liked to watch the other kids ride and listen to what they learned. My friend was in a lesson and she learned how to use her aids better when the horse doesn't listen. We also had a good lunch. My horse was very good and I loved riding him and learning.

Thank you very much for the 85 dollars to go to this clinic.

Thank you very much

Sofia Selner
