

There is no better words to say then THANK YOU! This was my first time being part of a clinic, and happens my first clinic was a big special educational one. I never knew attending a 5 day event would change the way I look at myself. I may have not been a rider but I sure felt like one. The only way I was able to attend this clinic was by the amazing scholarship you have gift me!

I don't even know where to start one how the week went. Monday was a great day to meet and get to know everyone. Just by the first day I was able to relate myself to a lot of the riders, by the story of their riding career, or the way we work to ride. I also want to put a huge thanks to the judge's that taught me so much by just listening to what they have to say, and the different perspectives. By Tuesday I already had friends and got to know even more.

I would say Wednesday was the most eventful day by having fun, to all of the educational lessons. I would have never seen the race horse side of things nor the sides of stallions and selective breeding. It was so much fun being able to have the group come over and seed the inhand/ jumpshoot side of things at Silver Fern Farm, which happens to be where I live.

Thursday and Friday were the most educational days of the week. With new judges and being able to see things I would have not been able to see myself. To all the elections we have. With the elections, to the field trips, and just watching the clinic, I have learned all the basics of the dressage world and helped me improve with self reflection. Thank you again for the amazing scholarship and the amazing learning experience!

Thank you, Micaela Kostyk
