

January 2023

Hi my name is Kylee Mckereghan,

I was so lucky to earn the Lendon grey scholarship to put towards training with my mare hoodie to work towards are U25 goals. I recently used that money towards a 2 day clinic with Christophe Theallet with my mare. I learned a lot of educational things to be able to not only use them on my mare but for my young horses as well as others I'm riding. One thing that was very helpful was he said to always moving the shoulders around weather it's in passage, or in regular work. To always switch gears in all gaits, to make sure the horse is really with you. I thank Lendon Grey and her team for allowing me this opportunity, as well as Christophe for a great clinic.

November 2022

Here is my small report from the first clinic:

I had the chance to have my mare "hoodie" attend a long lining clinic with Richard Malmgren here in Aiken South Carolina. It was a amazing experience and wonderful opportunity for my mare. It helped take the rider out of the picture and see what my mare struggles with, without a rider. I can now use the octagon in my everyday work to set her back and get her soft. I thank Lendon Grey and the dressage for kids scholarship to allow me to be able to further my educational with my mare.
