

I want to start by thanking you for the opportunity to attend this wonderful event. One of the many things I worked on was a few lateral movement skills like leg yields, and turn on the forehand. I also worked on having a tight connection on the bit. I am so grateful for my added learning each year.

Seeing Lendon at the clinic is one of my favorite parts of my horse activities. I really enjoy it even though the drive is long, it is so worth it. Every year it is great because my horse gets calmer each time I visit . The other people who work to put on the clinic are always so nice and the kindest people to me and the animals there.

Thank you,
Maci Remington
