

I have had a wonderful experience participating in the 2019 WIT program during the last Month of March with my new horse, Estudioso XLIV.

It has been a great transition for us to get to know each other and learn together with all the amazing support and training I received from Lendon! I was able to find a good understanding of how to ride a Spanish horse and improve the flying changes. We attended various lectures and training sessions that were very educational, along with making new friends in the process. I have taken away so much from the WIT program and I am extremely grateful for the scholarship D4K provided for me to make all of this possible! Thank you so much and I look forward to this year!

Sincerely,  
Jordan Lockwood
